

The Romanian Post launches its first digital stamp as NFT!

LITEPAPER

On the occasion of its 160th anniversary, Poșta Română is launching the first collection of digital stamps in the form of NFTs. The collection contains 160 unique pieces, each representing a year of the institution's rich history, with collectors able to directly purchase one or more digital stamps.

Roadmap

12.08.2022

The launch of the collection of 160 NFTs will take place during the anniversary event. 10 NFTs representing significant years in the history of the Romanian Post and of Romania will be sold in a public auction during the anniversary event. 150 NFTs will be able to be purchased in chronological order (starting with 1862, the year the Romanian Post was founded) both by using a bank card and by means of cryptocurrencies.

Purpose

All the funds generated by the sale of the 160 NFTs as well as 10% of the value of the subsequent sales (royalties) will be directed to the HOSPICE Casa Speranței foundation, the collection having an entirely charitable purpose.

Benefits

The purchase of an NFT from the Romanian Post's 160 years limited collection represents, first of all, a charitable act. All proceeds from the sale of NFTs will be directed to the HOSPICE Casa Speranței foundation for the palliative care offered to adult and child patients suffering from an incurable disease.

Another benefit of this charitable NFT is its intrinsic value, each NFT in this collection being unique and representing one of the 160 years of Romanian post.

As proof of the uniqueness and authenticity of this collection, Romanian Post has issued an authentication document that can be consulted by following [this link](#).

Buying options

10 digital stamps (NFTs) will be able for purchase through an open auction, these being allocated especially for the anniversary event that will take place at the MNIR headquarters. The remaining 150 pieces can be purchased online at: oveit.com/nft-romanian-post-160-years/

Partners

[The Romanian Post](#), a traditional and national brand, is the market leader in the postal services sector and serves approximately 19 million Romanians, providing its customers with an extensive network of 5,400 post offices.

Currently, the flagship company of Romanians in the field of postal services is owned by the Romanian state, represented by the Ministry of Research, Innovation and Digitalization (93.52% of the shareholding) and Fondul Proprietatea (6.48% of the shareholding).

HOSPICE | 30 DE ANI
Casa
Speranței

[HOSPICE Casa Speranței](#), a non-profit organization founded in 1992 in Brasov, introduced the concept of palliative care in Romania.

HOSPICE is the largest foundation in Romania, offering free palliative care services. The organization runs two hospitals in Brașov and Bucharest, a socio-medical center in Adunatii Copaceni, as well as mobile teams in Făgăraș and Zărnești, for the care of patients diagnosed with incurable illnesses. HOSPICE has developed complete palliative care services, offered in day centers, in patient units, and outpatient units, as well as in the patient homes and in partner hospitals. In its 30 years of existence, HOSPICE has brought comfort and hope to approximately 45.000 children and adults suffering from an incurable illnesses.

[Oveit](#) is a tech company with its headquarters in Austin, TX, USA. The company offers NFT solutions and smart contracts for events and online shopping. Oveit is a Crypto.com partner for crypto payment processing from 2020. In 2021, the company became an international Polygon partner for NFT ticketing and live shopping for NFT, through its solution Oveit NFT.

So far, Oveit has released cashless payment solutions for events and venues, as well as solutions for access control and registration for virtual and live events.

For its products, Oveit was nominated as „one of the most important innovators in the world regarding disruptive technology” by the World Tourism Organization of United Nations in 2019.
